- Collaborated with a team of four to develop a chat app using HTML, JavaScript, React, and CSS
- Contributed to the app's design, development, and testing processes over a six month period
- Gained full stack experience and skills in teamwork, communication, and Agile Development

Vex Robotics

- Designed, built, and programmed a fully functioning robot for a Vex Robotics tournament
 - Documented the entire process from design to competition
 - Gained experience in robotics engineering, programming, and teamwork. Successfully competed in a large-scale tournament showcasing the robot's capabilities
-

| Skills

- **Computer Languages:** Python, HTML, CSS, Javascript, C#, RobotC, Flutter, Sas
 - **Software:** Solidworks, AutoCAD, Inventor, Visual Studio Code, Unity, Vim, Firebase, NodeJS
 - **Additional Skills:** Speak fluent Spanish, project management, leadership
-

| Awards

- AJ Drexel Scholarship
 - American Society of Highway Engineers Scholarship
 - FUTURO College Preparatory Scholarship
-

| Relevant Coursework

Mathematics

- Multivariate Calculus, Differential Equations, Linear Algebra

Computer Science

- Computer Programming I, Computer Programming II
